Mendoza, Argentina · Spanish citizen

PROFILE

Full Stack Developer and founder of ZENNIN, a multi-venue SaaS for restaurants, bars and nightclubs. Experienced in web applications with React, Node.js and MySQL, from interface design to production deployment. Self-taught, results-driven and focused on building scalable, easy-to-use products.

EXPERIENCE

PRESENT

Founder

ZENNIN · Multi-venue hospitality SaaS

- Product leadership and full stack development of a SaaS for restaurants, bars and nightclubs.
- Cashier, stock, kitchen, QR menu, loyalty and purchasing/cost modules; role-based access.
- Automated WhatsApp customer service with AI (n8n + MySQL): takes orders and charges via Mercado Pago.

2025 — PRESENT

Full Stack Developer

Grupo IDF

- Ecommerce platform for product and stock management.
- Full stack architecture with React, Node.js and MySQL; REST APIs connecting frontend and backend.
- User authentication and access control.
- Production deployment and process automation with n8n.

2024 — 2025

Web Developer

Own projects

- Full stack web applications: frontend, backend and database.
- Usability-focused interface design; MySQL integration and validation.

EDUCATION
